ABOUT

Motivated Computer Science Engineering graduate and aspiring AWS & DevOps Engineer with foundational knowledge of cloud computing, AWS, Linux, Git, GitHub, Jenkins, Docker, Kubernetes, Ansible, and Terraform. Passionate about learning new technologies, solving problems, and building practical solutions. Seeking an entry-level opportunity to apply my skills, gain real-world experience, and grow as a DevOps professional.

PROJECTS

Multi-Factor Authentication for Prevention and Mitigation (Cybersecurity)

The Multi-Factor Authentication (MFA) project enhances login security by requiring users to verify their identity using two or more authentication factors, such as a password and an email. This prevents unauthorized access and mitigates cyber threats like phishing, password theft, and brute-force attacks while improving overall system security.

Linux Server Monitoring & Automated Backup System

Developed a Linux-based server monitoring system using Bash to track CPU, memory, disk usage, processes, and service status with automated logging. Implemented scheduled backups using tar and Cron, with disk-usage alerts and automated monitoring to improve server reliability and maintenance.

Single Axis Solar Tracker (IoT)

The Single Axis Solar Tracker is an automated system that rotates a solar panel from east to west using LDR sensors, a microcontroller, and a motor. It continuously follows the sun's movement to maximize sunlight exposure and improve power generation compared to a fixed solar panel.

EDUCATIONAL HISTORY

Bachelor of Engineering (2020 - 2024) - 84%

Department of Computer Science and Engineering.

Adhiparasakthi Engineering College, Chengalpattu.

SKILLS

TECHNICAL SKILLS

- **Operating System:** Linux (Ubuntu)
- **Cloud Platform:** AWS (EC2, S3, IAM, VPC)
- **Version Control:** Git, GitHub
- **CI/CD:** Jenkins
- **Containerization:** Docker
- **Container Orchestration:** Kubernetes
- **Configuration Management:** Ansible
- **Infrastructure as Code (IaC):** Terraform
- **Monitoring:** Prometheus, Grafana

CERTIFICATIONS

01 AWS & DevOps – MNP Technologies

02 Cyber Security – Prompt Infotech

03 Java – Campus Connection
